## A Rose in Bloom

To bloom, a rose must be carefully tended. It must be pruned, fed and watered regularly, and protected from foreign matter that could bring it harm. It's unwise to hold a rose too tightly; its thorns will painfully remind you. It's best to travel around rose bushes with caution or they might snag you; they demand room to grow. We can be like roses, needing careful tending, pruning, and room to grow in our own unique way. God allows us the freedom to be ourselves, but gives us guidance and points us in the right direction. At our house of worship, God can help us fully bloom.
